Specification Amendments:

I. Delete the paragraph at lines 22-25 of page 3 and replace such deleted paragraph with the following replacement paragraph:

In greater detail, such means provide motor means, advantageously constituted by a hydraulic pump 30, which draws its motion from a belt 31 that is connected to a pulley-like portion ~~32~~ formed on one of the flywheels 20 and engages a driven pulley ~~32~~ 33 that is keyed to the shaft of the pump.

II. Delete the paragraph at lines 14-17 of page 4 and replace such deleted paragraph with the following replacement paragraph:

It should be added to the above that it is optionally possible to provide, between the driven pulley ~~32~~ 33 and the pump body 30, an optional clutch system that allows to reduce friction whenever the upward movement for varying the inclination of the belt is not required.

In the Abstract of the Disclosure:

Substitute the original Abstract with the new Abstract on a separate sheet attached hereto.
